OBJECTIVE

Motivated MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React, and Node.js. Strong understanding of REST APIs, JavaScript, and responsive UI development. Passionate about clean, efficient code and eager to contribute to real-world projects in a collaborative environment.

PROJECTS

BOOKZONE | NOV 2025 | [LINK](#)

TECH - React / Next.js, Node.js, Express, MongoDB, Tailwind CSS

- Developed a full-stack book management system with JWT authentication and role-based access control (User/Admin).
- Built responsive React UI using Redux Toolkit and Tailwind CSS, including dashboards and book management features.
- Implemented email verification, password reset, form validation, automated cleanup jobs and RESTful APIs for secure data operations.

ELITE-MART | FEB 2026 | [LINK](#)

TECH - React / Next.js, Node.js, Express, MongoDB, Tailwind CSS

- Built a full-stack e-commerce platform with JWT authentication, role-based access, and secure cookie-based sessions.
- Developed features including product browsing, cart management, order tracking, address management, and admin dashboard.
- Integrated PayPal and Cash on Delivery payments, Cloudinary image uploads, and deployed using Netlify, Vercel, and MongoDB Atlas.

POKECARDS | SEPT 2025 | [LINK](#)

TECH - React.js, Public API

- Built a web application that fetches Pokémon card data from a public API.
- Implemented dynamic search and card display using asynchronous API calls.
- Designed responsive UI for browsing and filtering cards.
